Shortly after the body of Turner was found in the ditch near Buffalo Gap, Loyce Gooch, accompanied by his father and a brother, came to the Taylor county jail and said he had shot a man in a scuffle over a gun near Buffalo Gap. Gooch was wounded in the arm.

National Peanut Week Underway

COMANCHE COUNTY LEADS TEXAS IN PEANUT PRODUCTION

Peanut, which are produced in greater quantities in Comanche county than in any other county in Texas, will be featured in special sales throughout the United States during National Peanut Week, January 23 to 31.

These sales, sponsored by the National Peanut Council, with headquarters in Suffolk, Va., with the cooperation of merchants, were devised as one means of marketing the peanut surplus and stabilizing the market.

The United States Department of Agriculture estimated that National Peanut Week last year was responsible for the sale of 25,000 tons of peanuts for edible consumption. Through in creased advertising it is hoped by the National Peanut Council that the amount can be doubled this year.

To Comanche county farmers the success of this campaign will be important. This county produces annually more than \$465,000 worth of peanuts, and a stable market is desirable.

Ranking right behind Comanche as a peanut producing area in Texas is Eastland county. Erath and Brown county also are important producers.

Texas produced last year about 80,000 tons of Spanish peanuts, it was estimated by Dick Weekes, manager of the Southwestern Peanut Association, which markets nearly half the crop in this state. This is an increase of several thousand tons over 1939.

Texas is one of the five most important peanut states in the country. The only ones producing more of the nuts are Georgia, North Carolina, Virginia and Alabama.

ONE DAY SERVICE ON CHIEF CLASSIFIED AD

Last week, Mrs. Joe Chilton placed a small classified ad in the Chief, advertising an apartment for rent, and had the apartment rented by night.

Now, there is real results from advertising. Every day, which Her apartment was vacant, was costing her more money than the price of the ad.

"One classified ad placed in the Chief two weeks ago sold my farm," says D. C. Hurt, Comanche, "and it won't be necessary to run it again this week."

For real economical results, the Chief classified department continues to lead the field.

If you have something to sell or rent or want to buy or trade anything—use a Chief Classified; the cost is always small.

Faye Murphree Burns To Death In San Angelo

Miss Faye Murphree, 27, daughter of Cody Murphree of Comanche was burned to death in a fire that followed an explosion in her room in San Angelo where she had been making her home for about ten years. Officers said they believed the ignition of gas from a heating stove caused the explosion.

According to the San Angelo Standard, she ran screaming to a window and tried to get out when the explosion occurred at 7:45 Monday morning.

Mrs. A. V. Lee who was in her house next door said the flames were shooting from the window and the trapped woman fell back upon the bed. Immediately after the blast boys from a near by school rushed to the window, but were unable to rescue Miss Murphree.

The room was a charred wreck; bed, dresser chair, radio, and walls were blackened by the flames. Justice of Peace Hugh Jackson said he arrived on the scene shortly before 8 o'clock and found Miss Murphree's lifeless body on the floor near the window.

After today, just six more days remain in which to pay poll taxes in order to qualify as a 1941 voter according to P. A. Pettit, County Tax Assessor and Collector who states payments so far are behind those of the corresponding date last year. The deadline is midnight Friday, January 31.

Not only must a voter have a poll tax in order to cast his ballot unless he is exempt, but a poll tax receipt is necessary to hold certain offices including that of school trustee.

Property Tax Penalty February 1

Property taxes which are not paid before February 1 will be subject to a penalty and interest charge Mr. Pettit states. Taxes on real estate cannot be paid unless the owner's poll tax is also paid if he is subject to one. Mr. Pettit explains. President Roosevelt in a recent release urged all good citizens to pay their taxes promptly this year if possible, saying that it is just as patriotic for citizens to pay the taxes assessed against them as it is to take up arms in defense of the Country. No good citizen will willingly avoid tax payments, he says.

The Comanche Chief

Established in 1873

J. C. WILKERSON, Editor and Publisher.

Headed of the Post Office at Comanche, Texas, as Second Class Mail Matter.

Subscription Price \$1.50 Per Year in Advance. Single Copies—Everywhere \$1.50.

The Comanche Chief lays claim to three unique distinctions—being the oldest paper in West Texas (West of the Brazos); having one of the largest circulations of any weekly in Texas; and carrying as many Want Ads, week after week, as in weekly in Texas.

The Stephenville-Empire Tribune also enjoys three distinctions—being one of the best weeklies in Texas; serves one of the largest exclusive fields in Texas; and is the only paper in the State one of whose co-owners is Mayor and the other is secretary to his congressman.

While there is not too much merit in age, yet that is something to be proud of if it is an illustrious past as is the case with both the Comanche Chief and Stephenville Empire.

The Comanche Chief was founded in 1873 by the late G. A. Beeman. The first issue went out under the name of "The Comanche Chief," just as did the last one we published last week—no additions, no subtractions, although during its 68 years it has absorbed numerous other publications. Editor Rufus Higgs of the Stephenville-Empire Tribune and also Secretary to Congressman Sam Russell of Washington, D. C., thinks his paper is the oldest in West Texas. He is honest about this but just mistaken.

Last week Higgs writing his column, "I'll Tell The World" for his paper from the dome of our National Capital, the world's largest building had this to say about his paper: How many readers took note of the fact that the volume number of this great moral and metropolitan weekly changed last week? It is No. 71. Which means that this newspaper has been published continuously since 1870. That makes it the oldest newspaper west of the Brazos River. Our good friends over in Comanche claim the Chief to have this honor, saying that it was established in 1873. Editor Wilkerson should look at the front page of the Empire-Tribune and get his facts straight. As fine as the Chief is as a newspaper, and as much as we admire our friends in Comanche, we want them to know about this mistake. However, in true characteristic new-

paper fashion, Editor Wilkerson will correct this error when he gets the opportunity.

Several years ago we received a letter from some old man in California stating that he founded the "Western Empire," later the Stephenville Empire in 1874. We never published the article, but the piece did appear in the Stephenville-Empire Tribune. The old man later died in California and an account of his death was carried in the Stephenville-Tribune under the heading, "Founder of Tribune Dies In California".

We do not have a complete file of the Comanche Chief prior to 1912, but scattering early issues of the late 70's and early 80's refer to "The Western Empire" of Stephenville and to "The Dublin Telephone" of Dublin.

We do not know just when "The Stephenville Empire-Tribune" was established under the name it is now using, but it must have been some 12 or 13 years ago.

Mr. V: Our George will be in the hospital a long time.

Mrs. V: Why? Have you seen the doctor?

Mr. V: No, but I have seen the nurse.

Transmutation—

Teacher: Can anyone tell me what causes trees to become petrified?

Bright Student: The wind makes them rock.

Liza, the negro cook, answered the telephone one morning, and a cheerful voice inquired: "What number is this?"

Liza was in no mood for trifling and said with some asperity: "You all ought to know. You done called it."

"Do you act toward your wife the same as you did before you were married?"

"Just the same. I remember when I first fell in love with her, I would lean over the fence in front of her house and gaze at her shadow on the curtain, afraid to go in. And I act exactly the same way now."

"These eggs are very small," complained the housewife to her grocer.

"Straight from the farm this morning, madam," declared the grocer.

"That's the trouble with these farmers," she persisted. "They're so anxious to get their eggs sold that they take them off the nest too soon."

Four Houston men, having an afternoon cup of coffee this past week were discussing Thanksgiving and the many things that they had to be thankful for. A lawyer by the name of Del Barto, stated that he was ultra thankful that he had been kind to an old negro.

The negro called at Del Barto's home one Saturday afternoon about six months ago and asked if he could wash the lawyer's car and obtain fifty cents whereby he could purchase something to eat.

Del Barto hired the negro and paid him the amount he asked. The negro returned the following week and washed the lawyer's car again. This continued for several weeks. Then one Saturday, when the negro called, he informed Del Barto that he wanted some legal advice.

The negro owned forty acres of pasture land near Angleton, Texas. An oil company had offered to lease the land for \$10 an acre. This was a sum of \$400 and the negro wanted to know if it was a fair deal.

Del Barto first got his "car washer" to grant him power of attorney. Then he got the facts of the case. The negro's forty acres of land were adjacent to a large producing field. Del Barto turned down an offer of \$1000. Then he turned down an offer of \$4000 and later he turned down an offer of \$10,000 for the lease of the forty acres.

But last week Del Barto signed a lease for his colored client, and he received \$40,000 for the lease, plus a one-eighth royalty. Del Barto said that his fee was \$15,000. Naturally the lawyer had every right to be thankful that he had been kind to the old negro.

"Father," said the minister's son, "my teacher says that 'collect' and 'congregate' mean the same thing. Do they?"

"Perhaps, my son; perhaps they do," said the clergyman. "But there is a vast difference between a 'congregation' and a 'collection'."

"Daughter," asked the father, "is that young man serious in his intentions?"

"Guess he must be, dad," she replied. "He's asked me how much I make and what kind of meals we have and how you and mother are to live with."

Mrs. Neighbor: I've been looking for my husband for two hours. Spinster: That's nothing. I've been looking for one for twenty years and haven't found him yet.

TEXAS I GIVE YOU

"The greatest gift of God to man is will-power." This was a favorite saying with Dr. A. C. Scott, Sr., founder of the internationally famous Scott & White Hospital and Clinic in Temple. And friends of the celebrated surgeon—whose death occurred a few days ago at the age of 75—say that his own chief characteristic was, having once made up his mind, he stuck to his purpose.

He graduated in medicine before he was 21, returned to his native town of Gainesville to enter practice and one of his first patients was a young lawyer, whose throat needed treatment every week-end after strenuous campaigning. The lawyer was running for Congress.

His studies in cancer and his philanthropies made Dr. Scott a truly great man. The hospital which he headed at the time of his death has 17 buildings of varying sizes, a staff of 54 physicians and to it annually come thousands from all parts of the South and Southwest and from Mexico, Central and South America. Back of it all was a quiet, modest, kindly man (this writer met him just a few weeks ago and will always treasure the experience) who never tired of working and studying, then newly-established in Temple; built it up steadily; afterward, founded the King's Daughters Hospital, which has grown into one of the largest in the State; and then he and the late Dr. R. R. White started the hospital which bears their names, paying \$1,000 down on a former convent building.

Tonic One Sunday morning the pastor of a Negro congregation noticed that an old face had reappeared among his flock, and after the sermon made it a point to welcome the supposedly repentant backslider.

"This is the first time I have seen you at church for a long time," he said. "I'm sho'ly glad to see you here."

"Ah done had to come," explained Rastus. "Ah needs strengthenin'. Ise got a job white-washin' a chicken coop an' buildin' a fence round a watermelon patch."

Men may be smarter than women—but not in "book learnin'." University of Texas officials believe. A current registrar's report shows co-eds ranked well above men students among the school's 11,000 students. Girls made an average of 1,345 grade points to boys' 1,134 points.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germs laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. Gustine Methodist Women Have Meeting

By Flora B. Couch, Reporter

The Methodist Church of Gustine has a wide awake Womens Society of Christian Service. This months work has been unusually interesting. The Bible Study has been better than ever before. A slip is passed to each one a week before our lesson with the subject and scripture they are to discuss their talks really show a well studied lesson.

Thursday morning of each week finds the spiritual life group at their post with Bible lesson, songs and prayers. Our Church School and Church work is moving nicely too in spite of the bad weather and flu.

Monday afternoon being our social day, fifteen met at the home of your reporter, after the devotional consisting of Bible reading, prayers and songs we had a reading and some good talks on putting off until tomorrow things we should do today. Then came the contests and games, a prize was given the one whose purse contained the greatest number of articles the prize went to Mrs. Barrett who counted thirty-five as she emptied her purse, several others were close behind so our Methodist women may carry as much in their purses as our little boys do in their pockets. After exchanging gifts names were drawn for next social. The names being printed on pictures of different cakes made it interesting after a contest on cakes that tested our knowledge on cakes.

They were served ham sandwiches, potato chips, old fashioned pound cake and hot chocolate. Everyone left saying they were glad they came.

E. W. Bruner Makes Statement On Pct. No. 3 Indebtedness

Commissioner E. W. Bruner of Precinct No. 3 issues the following statement of the indebtedness of his precinct.

I find that my precinct owes six notes all bearing 6 per cent interest, the principal of which totals \$14,237.48 of which \$4,868.74 of the principal must be paid this year. Three of the notes mature in full this year, one next year, one in 1944, and the other in 1945.

"If the citizens of my precinct will clean out the fence rows along the road and burn the trash, they will not only be helping themselves, but will greatly aid me in my work in keeping up the roads. I will certainly thank the citizens for their co-operation in this matter. E. W. Bruner, Commissioner Precinct No. 3."

In the earliest period of the colonization of Texas, the town of San Felipe, Stephen F. Austin's colonial capital, boasted of possibly a dozen log cabins and only frame building—which was a saloon and billard hall.

Navy Recruiting Officer To Be Here Every Week

There will be a Naval Recruiting Officer in Comanche on every Thursday for the next three or four months according to an announcement by M. A. LeGros, Chief Machinist Mate of the U. S. Navy.

The Naval Recruiting office will be in the Post Office at Comanche.

Mate LeGros explains that men between the ages of 17 and 31 are accepted for duty in the U. S. Navy. In order to get into the Navy, men must be of good character, mentally qualified, unmarried, and pass a rigid physical examination.

Over fifty per cent of them in the Navy are specialists with pay at \$60 to \$157 per month.

Every man on board ship has excellent opportunities to advance along many lines, and each promotion means more pay and greater privileges, explains LeGros.

"Build-Up" Relief Explained to Women

A simple method has saved many women a lot of suffering! It is based on the fact that headaches, nervousness, cramp-like pain are often symptoms of functional dysmenorrhea due to malnutrition.

Help for this condition so often follows the use of CARDUI, because it usually increases the appetite and the flow of gastric juice; thus aids digestion and helps build physical resistance. Usual result is less periodic distress.

Many who take CARDUI a few days before and during "the time" have found this helps ease periodic discomfort. Women have used CARDUI for more than 50 years!

The Individual and Christian Missions

"While the whole task of taking the Gospel to the whole world belongs to the whole Church, the actual work is done by individual members of the Church as the opportunity comes to them. It is not so much a matter of each one trying to do everything, as it is a matter of each one doing that particular thing which comes before his attention. Christian hearts yearn for the whole world to know Christ and to be blessed in Him, but Christian hands undertake to do just that work which God in His providence gives them to do. Sometimes such work takes them far afield to the ends of the earth, and sometimes their opportunity comes to them right at their own door. Some are called to give their lives in full-time missionary service; and some are not so called, but work in their own way at daily tasks yet as unto the Lord, and give of their means to support those who have gone into full-time service. But always the cause is advanced as Christians are personally faithful in seizing the opportunity to serve as it comes to them."

A warm welcome to all.
E. M. Shepard, Minister.
